Hop step layup 2k19

No matter if NBA 2K19 is your first or fifth year playing the franchise, you'll want to have a full list of controls and combinations of buttons memorized for when you take it to court. In this NBA 2K19 offensive controls guide, we'll be detailing the full layout of the controls for when you're on the offensive and driving toward your opponent's basket. If you need help with other areas of the game, you'll want to check out our NBA 2K19 guide hub. It is on this guide page that you can find all the tips and tricks for beginners you need for the game, as well as how to start with your MyCareer player in the Prelude demo. NBA 2K19 Attack Controls Just below, we split all control categories for when you're on the offensive side of the ball in NBA 2K19. Keep in mind that for this guide we are using the DualShock 4 controller. NBA 2K19 Shooting Controls Jump Shot - Move and hold the analog stick right, then release, or hold Square then release. Bank Shot - Move and hold the analog stick right up, and then release. Throw Free - Move and hold the right analog stick, then release, or hold Square then release. Normal Layup - Move and hold the analog stick right while driving. Runner/Float - Move and hold the analog stick right down while driving at close range. Reverse Layup - Move and hold the analog stick right to the right while driving along the right baseline. Dunk two hands - Hold the right trigger and hold the analog stick right while driving. Dominant Dunk - Hold the right trigger and hold the right left or right analog stick while driving to determine the drier's hand. Flashy Dunk - Hold the right trigger and hold the analog stick right down while driving. Fake Pump - Tap the Square, or move quickly and then release the right analog stick. Hop Gather - Tap Square while dribbling with the left analog stick moving in any direction. Spin Shot - Hold the right trigger and double-tap Square. NBA 2K19 Dribbling Controls Sprint - Hold the right trigger and move the left analog stick in any direction. Signature Size-Up Combo - Move the analog stick right and then release quickly while it's still. Inside and outside - Press the right trigger and move the analog stick right up and then release quickly. Crossover - Move the analog stick right to the left, then quickly release while dribbling with your right hand. Between legs cross - Hold the right trigger and move the right analog stick to the left, then release quickly. Behind the back - Move the analog stick right down, then release quickly. Stepback - Hold the right trigger and move the analog stick right down and then release quickly. Rotate - Turn the right analog stick clockwise and then release quickly. Hard Stop - Tap the left trigger while driving forward. Hold defenders - Hold the left trigger to hold a defender. Stepover - Push the analog stick right to the right or left, and then release quickly. Fake triple threat bomb - Move the analog stick right down and then release quickly. NBA 2K19 Normal Pass Controls - Press X and use the left stick to select the receiver. Bounce Pass - Press O to pass and use the left stick to select the receiver. Airpass - Press triangle to pass and use the left stick to select the receiver. Skip Pass - Hold X to direct a receiver further. False Pass - Press Triangle and O while you are still or driving. Jump Pass - Press Square and X while you are still or driving. Pass the icon - Press the right bumper and press the corresponding receiver icon. Flashy Pass - Double-tap O to pass and use the left stick to select a receiver. Alley-Oop - Double-tap the Triangle to pass and use the left stick to select a receiver. Alley-Oop to Self - Double-tap triangle and move the left analog stick toward the bean. Lead to Basket Pass - Press and hold Triangle to make the selected receiver cut to the basket, then release Triangle to pass. Touch Pass - Press X before the starting receiver picks up the ball, and use the left stick to select the second receiver. Give and Go - Press and hold X until the receiver catches the ball. While keeping X stuck, use the left stick to move the initial pass, and release X to retrieve the ball. NBA 2K19 Post Offense Controls Enter and Leave Post - Hold the left trigger to post up, release the left trigger to leave the post. Post Pivot - Press and hold the left trigger to post. Move the left analog stick in any direction and then release quickly. Key unit - Hold the left trigger to put up. Hold the right trigger and push the left analog stick toward the key, then quickly release the left trigger. Rotate or Drive - Hold the left trigger to place up and rotate the right analog stick to both shoulders. Straight Stepback - Hold the left trigger to put up, then hold the right trigger and move the analog stick right down and then release quickly. Post Hook - Hold the left trigger to put up, then move and hold the analog stick right up or right. Post Fade - Hold the left trigger to put up, then move and hold the right analog stick left or right away from the bearer. Post Hop - Hold the left trigger to put up, then move and hold the analog stick left, right or down, and tap Square. And with that, our complete guide to controls for the attack in NBA 2K19 is finished. From here, you can go to our NBA 2K19 defense controls guide, for a complete break of the control scheme on the opposite side of the ball. Watch all your favorite videostars! Games Entertainment Beary Food Health Travel Tech After watching some tutorials and experimenting in freestyle I still can not do this, does anyone know what is the exact button to make a leap step in my team? Appreciated! Tap Square/X while pressing Turbo on the point. 2 Like What about the left stick? toward the edge? Thank you! What does left stick mean, diverted? I'm sorry I had bad English. It's like taking a fall step. You tap the square while your LS is being touched in the direction you want 1 As no prob bro if you you that move in PD Giannis would be so tacky 2 Likes Below you will find all the game controls for NBA 2K19 for the PS4 console.
